

## DIN-ECO Innovation Competition has Officially Started

**Young changemakers, inventors, and future pioneers** revolutionizing **Digital Technologies, Digital Health, and Manufacturing**, the **DIN-ECO project is calling for you!**

The **DIN-ECO Innovation Competition is a university student hackathon** running in Denmark, Greece, Italy, Poland, Serbia, and Turkey **until December 2nd, 2022**, to **identify and support progressive business solutions** in the fields of:

- ✓ Digital Technologies
- ✓ Digital Health
- ✓ Manufacturing

The student participants are asked to **submit their business ideas as individuals or teams**, highlighting the challenges they aim to solve, the target groups and the innovation elements. Problem-solving, critical thinking, creativity and adaptability are fundamental to making an idea stand out.

All submissions will be reviewed, and **the best 5 innovative ideas of each participating country will be selected as finalists** and advanced to the hackathon's final round.

### **Benefits for the winners of the DIN-ECO Innovation Competition:**

- ✓ Receive high-quality mentoring and consulting services from experienced professionals.
- ✓ Participate in exclusive training sessions focusing on specialized topics of entrepreneurship and innovation.
- ✓ Enrich their CVs with a new accomplishment and a valuable learning experience.
- ✓ Network with experienced entrepreneurs and other students from top European business schools.

**We challenge and inspire young talents!** Do not miss out on the opportunity **to become part of a pan-European hackathon**, harness your entrepreneurial skills, and **make an impact**.

*"DIN-ECO is supported by HEI Initiative program of the European Institute of Innovation & Technology (EIT) (cohort 2) and is funded by the European Union. The HEI initiative aims to support HEIs with expertise and coaching, access to the EIT innovation ecosystem, the largest in Europe, and funding, enabling them to develop innovation action plans complementing the needs of individual HEIs"*
